SUMMARY

Passionate about software development and eager to grow in the IT industry. Skilled in building real-world applications and solving problems through code. Looking to gain hands-on experience, improve technical skills, and contribute to meaningful projects.

PROJECT

Online Parking booking slot

semester Project • github.com/iqratiq/-Parking-Slot-Booking

- Built an online parking booking platform that facilitated seamless reservations, provided real-time slot availability, and ensured secure transactions through robust authentication systems.

AI-Based News Summarization using BART with Zero Trust Security

Semester Project • github.com/iqratiq/AI-Based-News-Summarization-using-Bart-with-Zero-Trust-Security-Measures

- Built a Flask web app in Python that scrapes news articles and uses the BART transformer model to generate concise summaries. Integrated Zero Trust security principles to ensure safe data handling and access control.

EDUCATION

Bachelor Of Computer Science

University of Engineering and Technology • Lahore • 2025 • 3.49
